**Sub: Terms and conditions for opening new center of Rural Computer Training Academy at your Place.**

### **About Rural Computer Training Computer Academy:**

The aims and objectives of "Rural Computer Training Academy" is to provide entire computer education to common and middle class and below poverty line peoples of our country of any age group, we make them a perfect man for getting not only jobs in the cities; but also in the villages. We are encouraging our government computer literacy movement all over the nation.

Technical education has already transformed millions of lives in India and is fuelling economic growth across all its sectors. But there still are several pockets of rural India left behind by the technological revolution and where the modernization of the education system is still a fancy dream. It is not that students here lack the willingness to study; what they do not receive is the opportunity to study and the availability of quality yet affordable educational resources.

Rural Computer Training Academy (RCTA) is a non-profit organization, sister concern of Grameena Kaushalya Abhivraddhi Charitable Trust, committed towards the quality computer education to young generation living in villages. The organization aims to provide three types of training: (a) Basic computer literacy; (b) Computer as a tool for learning in schools and home; (c) Training in hardware. Currently RCTA are running 108 computer centres at different location that provide basic computer literacy. Around 10,800 students are learning computers in different computer centres through this Program. RCTA and other collaborating organization are also running computer education program in schools in rural areas. Currently this program is operating in more than 10% schools. Many students get job opportunities after going through the RCTA computer education program and have gotten jobs in reputed firms, schools and computer centres. In the coming year more centre's will be started and the program will also include Web designing & Adobe Photoshop training. RCTA is also in the process of publishing a book on MS-office assignments which will be provided to students for practical work during the course.

### **Our Vision:**

To spread Computer Literacy throughout Rural Karnataka.

### **Quality Policy:**

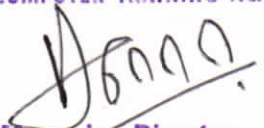

At RCTA, we practice continual improvement to achieve student satisfaction by providing quality and effective education.

### **Our Mission:**

Right education for candidate at right place and at right cost. To impart the quality and effective knowledge to people and help build the nations on the latest knowledge.

## ಗ್ರಾಮೀಣ ಕಂಪ್ಯೂಟರ್ ತರಬೇತಿ ಆಕಾಡೆಮಿ

(ಕರ್ನಾಟಕ ಸರ್ಕಾರದ ಗ್ರಾಮೀಣ ಜನರ ಕೌಶಲ್ಯ ಅಭಿವೃದ್ಧಿ ಯೋಜನೆಗೆ ಪೂರಕವಾಗಿ)

To impart quality computer education at an affordable rate to rural Indian youth in order to prepare them for either starting their own enterprises or to get well-paying jobs in good companies.

### Our Goals and Objectives:

- ❖ To reduce unemployment in the rural Karnataka through self-employment/ employment.
- ❖ To train rural youth so that they can earn their livelihood easily in their own village. This prevents mass migration to cities.
- ❖ To promote a culture of Information Technology and introduce it as a career option to rural youth.
- ❖ To build a network of grassroots-level organizations across Karnataka promote Rural Computer Literacy.

### Our achievements in the past ten years:

- ❖ Rural Computer Training Academy has trained rural youth in computer education.
- ❖ More than 79% students now have jobs in Govt., Private and Public sector companies.
- ❖ Rural Computer Training Academy has created employment opportunities for about 85% people in Choma village.
- ❖ Rural Computer Training Academy is certified by ISO 9001: 2015 from Dubai Accreditation Certification.
- ❖ Rural Computer Training Academy is approved by Govt. of Karnataka Certified Vocational Training provider for Kaushalya Karnataka Scheme.
- ❖ More than 25% female students from Rural Computer Training Academy have opened their own enterprises.
- ❖ Rural Computer Training Academy founder, Mr.Harikrishna Poojary has successfully convinced parents in the nearby villages to enroll their kids in primary schools. As a result, more than 75% children's are now attending school and also receiving computer education after school hours at the Academy.
- ❖ Rural Computer Training Academy has trained 50% students from very poor backgrounds in Basic Computing Course for two months FREE of cost in May-June, 2007 - 2018.
- ❖ About 40% students have received help and guidance over period of 1-2 years in the preparation of different engineering entrance exams & all of them have achieved success by gaining admission into their preferred engineering courses.

## ಗ್ರಾಮೀಣ ಕಂಪ್ಯೂಟರ್ ತರಬೇತಿ ಆಕಾಡಮಿ

(ಕರ್ನಾಟಕ ಸರ್ಕಾರದ ಗ್ರಾಮೀಣ ಜನರ ಕೌಶಲ್ಯ ಅಭಿವೃದ್ಧಿ ಯೋಜನೆಗೆ ಪೂರಕವಾಗಿ)

**Project Cost For** Our start-up cost for one branch is about Rs.1,00,000, a major chunk of which (Rs. 60,000) goes towards buying 10 old computers and Rs.25, 000 on power back up and one double battery inverter. You can contribute to our effort by providing us with used desktops. This will help us open two-three more branches in villages using the same Rs. 1, 00,000. Without your generosity, it will be difficult for us to expand RCTA's operations.

You can also help by providing us with laptops, in which case we will not need to buy inverters. Our aim is to open more and more branches so that we can reach every part of rural Karnataka. With your help and aid in terms of used systems, we can expand faster and produce greater impact, a lot quicker!

We are very happy to know that there is more and more young challenging educated male and female are coming forward to start computer literacy centers in number of small and big urban & rural places. We are ready to guide and inspire such persons. Whenever you send your fresh applications for starting a new center; first thing, our controlling office will properly scrutinize your application and we will also send our representatives to inspect your particular center.

After our inspection we will give the permission to open the new RCTA center. We have got number of short term & long term courses which are very useful to the learners. Please keep in your mind that 'Rural Computer Training Academy' will give **first preference to self-employed persons**.

We will also consider applications of educational institutions, trusts and social welfare societies to open computer training centers of Rural Computer Training Academy.

**We give below information and terms and conditions for opening new franchisees at your place:**

- ❖ Centre should have minimum of 400 sq. feet place with proper space for class room and practical room with toilet facilities for students.
- ❖ The center should have minimum 5 to 6 computers in working condition Dual Core with one printer.
- ❖ Your center should be at the heart of the city or center of the village place with proper public contact.
- ❖ The teaching faculty should be qualified in IT.
- ❖ Your center should strictly follow syllabus of our Academy for using our scientifically designed text books. We have our own application with prospectus to the students, center should compulsorily issue the same to all the students.
